SWISS

Exclusive Focalpin Type

The ULTIMATE in Prism Binoculars

WATERTIGHT, DUSTPROOF and CENTERFOCUSING:

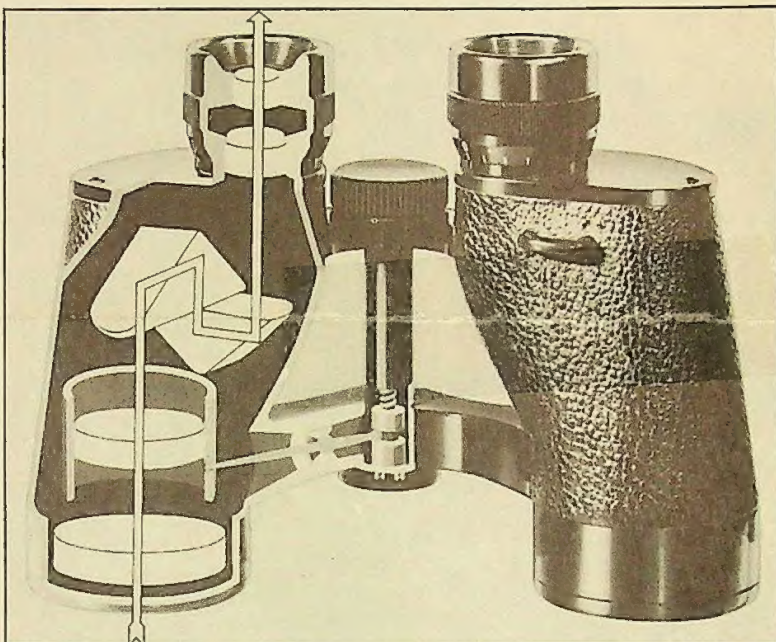

Exclusive INTERNAL focusing accomplished with additional, movable internal lenspair, completely eliminates all external motion and leaks—prevents moisture condensation and dust-specks inside binoculars PLUS... Rapid CENTER focusing for utmost ease of operation, with individual eyepiece adjustment.

NIGHTGLASSES: Precision ground coated lenses and prisms of finest optical glass plus extreme objective diameters render striking overall brilliance—even in rainy and hazy weather, at dawn and at dusk. Special anti-reflection coating increases luminosity by 50%—prevents needless eyestrain during long hours of field observation.

ULTRA-DEFINITION: Unique lens formula with additional lens pair provides razorsharp focusing, finest details and highest contrast.

FEATHERWEIGHT: Well-balanced lightweight construction designed to fit into your hands for steady, convenient grip.

SHOCKPROOF: Especially rugged Swiss precision mechanism—built with the inimitable accuracy of Switzerland's traditionally outstanding craftsmanship.

Focalpin 6x40 \$169.00

Focalpin 7x50 199.00

Focalpin 10x60 229.00
